Computer case ATX

Model: **AKY313BR**

3

Product code	AKY313BR
Product type	Computer case ATX
Format	Midi ATX
Series	Midi Tower ATX Case
Motherboard compatibility	ATX, Micro ATX, Flex ATX, Mini ITX
Drive bay 5.25" external	2 pcs
Drive bay 5.25" internal	1 pc
Tool-less 5.25" drive installation	No
Drive Bays 3.5" internal	3 pcs
Drive bay 3.5" external	1 pc (via AK-CA-19)
Tool-less 3.5" drive installation	Yes
Drive bays 2.5" internal	1 pc
Tool-less 2.5" drive installation	No
Tool-less 2.5" slim drive installation	No
Drive Bays 2.5" and 3.5" in all	5 pcs
Total internal bays	5 pcs
Total external bays	3 pcs
Maximum graphic card length	260 mm
Maximum CPU cooling height	160 mm
Sheet thickness	0.55 mm
USB 3.0 ports on the front panel	2 pcs
USB 2.0 ports on the front panel	2 pcs
Total number of USB connectors	4 pcs
Memory card reader	None
Audio input on the front panel	1 pc
Microphone input on the front panel	1 pc
Expansion card slots	7
Security lock	None
Hole for padlock	No
Cable management system	Basic
Installed fans	None
Fan adjustments	None
Spaces for additional fans	3
Fan slots description	Side: 12cm, back: 8/9.2cm, front: 12/14cm
Water cooling ready	No
Anti-dust filters	No
Power supply tunnel	No
Power supply unit included	None
Material	Galvanized steel
Product color	Black

3

Color insets	Red
Display	None
Package	EcoBox
Product size (L x W x H)	415 x 190 x 415 mm
Package size (L x W x H)	455 x 210 x 450 mm
Net weight	3.1 kg
Gross weight	3.75 kg
CE compatibility	Yes
Included accessories	AK-CA-19
EAN code	5901720133199
Warranty	24 months

Description

The **Akyga® AKY313BR** case has many advantages that make it a perfect product even for the most demanding users. Modern front panel with geometric cutouts combined with red accents and black, steel mesh gives a powerful gamer and coherent look to overall. Thanks to profiled panels and rounded edges, the casing is no longer just a solid body, but it becomes an element of interior design.
It has been designed with care of high performance and the greatest possible versatility. The casing allows one of four different types of motherboards to be used. In addition to the **Micro ATX**, **Mini ITX** and **Flex ATX**, it is possible to mount a standard **ATX** motherboard, which is an important asset in adapting the components to changing needs and requirements. **Two 5.25" external bays** located on the top allow to mount a CD/DVD drive or burner – those can be transformed into a 3.5" or 2.5" by using a tool-less bay, if needed. Inside there are **three 3.5” bays** (convertible to 2.5"), **one 2.5" bay** and **one 5.25" bay**, giving a total of **5 internal bays** for mounting disks and drives. The cable management system and customizable internal cutouts facilitate the installation of components, while the spacious interior allows for the installation of graphics cards up to **260 mm** long.
The case makes it possible to install **three fans**: side (12 cm), rear (8 or 9.2 cm) and front (12 or 14 cm). The maximum height of CPU cooling system is **160 mm**. Cooling is also favored by a front panel, almost entirely made of steel mesh. This means that air circulation (with or without fans) is **much better** than in fully enclosed case, and this provides cooler conditions for key components, ensuring their stable operation for longer time.
On the front panel there are **two USB 3.0** ports for fast data transfer and **two USB 2.0** which are great for connecting wireless mice, keyboards, external storage media or other peripherals. Right next to are the headphone and microphone inputs. Thanks to this position of the sockets, connecting equipment is fast and convenient.
To protect the environment, all Akyga cases are packed in EcoBoxes.
