# Desctription

**The Akyga® AK-USB-48 USB Type C coiled cable** is a unique accessory dedicated to all retro-style keyboard enthusiasts. This cable owes its unique appearance to the stretchable spiral and the massive GX16 connector. They are an undoubted decoration of any desk, giving it a unique character. Moreover, the flexible design of the USB cable makes it much easier to maintain order and aesthetics around your computer. On the other hand, the **3-metre-long cable** provides convenience of use.
The AK-USB-48 USB cable has a universal **USB-C and USB-A connector**, which ensures wide compatibility with various devices. Thanks to this, you can easily connect not only the keyboard, but also charge a wireless mouse or other portable device.
The USB cable is additionally reinforced with a **braided sleeve**, which not only increases its durability but also adds to the elegant look. The braid provides protection from external damage, increases resistance to bending and extends the life of the cable.
