Description

The **Akyga® AK729BK** is a Micro Tower product with excellent cooling capabilities. The case **allows to install two powerful fans**: on the back (8 cm) and on the side (12 cm). The maximum cooling height of the CPU is **140 mm**. The well-thought-out design allows the installation of strong components that will satisfy most users.
The casing allows the use of one of three different types of motherboards: **Micro ATX**, **Mini ITX** and **Flex ATX**. The **5.25" external bay** at the top allow the installation of a CD/DVD drive and the **3.5" external bay** can be used as a space for memory card reader. Inside the case there are **one 5.25”** and **one 3.5"** bay for drives installation. The cable management system and customized cutouts inside the case make it easy to install components. Spacious interior allows for up to **350 mm** long graphics cards.
In the upper part of the functional front panel are **two USB 2.0** and **two USB 3.0** sockets. They are used, among others, to connect a wireless mouse, keyboard, as well as external storage media or other peripheral devices. There are **headphone** and **microphone inputs** right next to it.
A set of assembly screws included. The contents of the set may vary depending on the delivery.
To protect the environment, all Akyga® cases are packed in **EcoBoxes**.
