Computer case ATX

Model: **AK009WH**

3

Product code	AK009WH
Product type	Computer case ATX
Format	Micro ATX
Series	Gamer
Motherboard compatibility	Micro ATX, Flex ATX, Mini ITX
Drive bay 5.25" external	1 pc
Drive bay 5.25" internal	None
Tool-less 5.25" drive installation	Yes
Drive Bays 3.5" internal	3 pcs
Drive bay 3.5" external	None
Tool-less 3.5" drive installation	No
Drive bays 2.5" internal	2 pcs
Tool-less 2.5" drive installation	No
Drive Bays 2.5" and 3.5" in all	5 pcs
Maximum graphic card length	320 mm
Maximum CPU cooling height	155 mm
Sheet thickness	0.45 mm
USB 3.0 ports on the front panel	1 pc
USB 2.0 ports on the front panel	1 pc
Audio input on the front panel	1 pc
Microphone input on the front panel	1 pc
Expansion card slots	4
Security lock	None
Cable management system	Advanced
Installed fans	None
Spaces for additional fans	3
Fan slots description	Side: 12cm, back: 12cm, front: 12cm
Water cooling ready	Yes
Power supply unit included	No
Material	Galvanized steel
Product color	White
Display	None
Package	EcoBox
Product size (L x W x H)	370 x 190 x 385 mm
Package size (L x W x H)	430 x 230 x 440 mm
Net weight	2.7 kg
Gross weight	3.3 kg
CE compatibility	Yes
Included accessories	AK-CA-01, AK-CA-03, AK-CA-20
EAN code	5901720132154

Warranty	24 months

Description

Akyga **AK009WH** case is by far the most beautiful representative of our range of Gamer products. The white, lacquered box creates an impression of cleanliness and elegance. However, beautiful looks are not all that distinguishes this product. The casing has been adapted to a variety of requirements, making it suitable for gamers and home environments, as well as offices, schools and wherever the décor is important.
It has been designed with care of high performance and the greatest possible versatility. The casing allows one of three different types of motherboards to be used: **Micro ATX**, **Mini ITX** or **Flex ATX**, which is an important asset in adapting the components to changing needs and requirements. The **5.25" external bay** allows to mount a CD/DVD drive or burner. Inside there are **three 3.5” bays** and **two 2.5" bays**, giving a total of **5 internal bays** for disks and drives. The advanced cable management system and customizable internal cutouts facilitate the installation of components, while the spacious interior allows for the installation of long graphics cards up to **320 mm**.
In order to provide better overall ventilation, the case makes it possible to install **three fans**: front (12 cm), side (12 or 14 cm) and rear (12 cm). The maximum height of CPU cooling system is **155 mm**. Cooling is also favored by steel mesh inserts on the front and top panel. This means that air circulation, regardless of the number of fans installed, is **significantly better** than in fully enclosed enclosures, which provides cooler conditions for key components, ensuring their stable operation for longer time. The construction also allows the use of a **liquid cooling system**.
On the front panel there is a **USB 3.0 port** for fast data transfer and standard **2.0 port** for connecting wireless mice, keyboards, external storage media or other peripherals. The headphone and microphone inputs are located right next to it, providing easy and fast access to the peripherals. The special feet on the bottom effectively reduces vibrations, ensuring its stability and reducing the level of generated noise.
To protect the environment, all Akyga cases are packed in EcoBoxes.
