Description

The **AK921BL** is a versatile case that is perfect both for players and for home or office space. Particular attention is drawn to the front panel – black matte module with steel mesh and navy blue accents assures, that the case will not remain unnoticed.
It has been designed with care of high performance and the greatest possible versatility. The casing allows one of four different types of motherboards to be used. In addition to the **Micro ATX**, **Mini ITX** and **Flex ATX**, it is possible to mount a standard **ATX** motherboard, which is an important asset in adapting the components to changing needs and requirements.
The **5.25" external bay** located on the top will allow you to mount a CD/DVD drive or burner. Inside there are **three 2.5" bays**, **three 3.5” bays** (convertible to 2.5"), and **one 5.25” bay**, giving a total of **7 bays** for mounting disks and drives.
The cable management system and customizable internal cutouts facilitate the installation of components, while the spacious interior allows for the installation of graphics cards up to **385 mm** long.
The case makes it possible to install **two fans**: side (12 or 14 cm) and rear (12 cm). The maximum height of CPU cooling system is **150 mm**. On the front panel there is a **USB 3.0 port** for fast data transfer and standard **2.0 port** for connecting peripherals such as a mouse or keyboard. The headphone and microphone inputs are located right next to it, providing easy and fast access to the peripherals.
To protect the environment, all Akyga cases are packed in EcoBoxes.
