Computer case ATX

Model: **AKY011BG**

3

Product code	AKY011BG
Product type	Computer case ATX
Format	Midi ATX
Series	Gamer
Motherboard compatibility	ATX, Micro ATX, Flex ATX, Mini ITX
Drive bay 5.25" external	2 pcs
Drive bay 5.25" internal	1 pc
Tool-less 5.25" drive installation	Yes
Drive Bays 3.5" internal	3 pcs
Drive bay 3.5" external	None
Tool-less 3.5" drive installation	No
Drive bays 2.5" internal	3 pcs
Tool-less 2.5" drive installation	No
Tool-less 2.5" slim drive installation	No
Drive Bays 2.5" and 3.5" in all	6 pcs
Total internal bays	6 pcs
Total external bays	2 pcs
Maximum graphic card length	385 mm
Maximum CPU cooling height	159 mm
Sheet thickness	0.5 mm
USB 3.0 ports on the front panel	1 pc
USB 2.0 ports on the front panel	2 pcs
Total number of USB connectors	3 pcs
Memory card reader	SD/MMC, TransFlash
Audio input on the front panel	1 pc
Microphone input on the front panel	1 pc
Expansion card slots	7
Security lock	None
Hole for padlock	None
Cable management system	Advanced
Installed fans	None
Fan adjustments	None
Spaces for additional fans	3
Water cooling ready	No
Anti-dust filters	Yes
Power supply tunnel	No
Power supply unit included	None
Material	Galvanized steel
Product color	Black
Display	None

Package	EcoBox
Product size (L x W x H)	460 x 198 x 480 mm
Package size (L x W x H)	485 x 230 x 520 mm
Net weight	3.9 kg
Gross weight	4.9 kg
CE compatibility	Yes
Included accessories	Set of mounting screws
EAN code	5901720134028
Warranty	24 months

Description

Akyga® AKY011BG housing is a Gamming category product, i.e. those created with particular attention to players. It was made of high quality components and offers functionalities that should meet the expectations of even the most demanding consumers.

Modern black front panel with the addition of mesh gives the case a "gaming" character. The side panel of the housing is equipped with a plexiglass window, which provides an insight into the work of components and the overall presentation of the set.

The housing allows mounting motherboards: Micro ATX, Mini ITX, Flex ATX or standard ATX. This is a big advantage, allowing you to adapt the components to the growing needs or requirements of the user. The two outer 5.25 ”bays located in the upper part of the housing allow the installation of, for example, a CD / DVD drive or recorder. Inside the case, three 3.5 "bays, three 2.5" bays and one 5.25 "internal bay are available for mounting drives and drives. Adapted holes inside the housing allows an easy assembly of components, and an advanced cable management system makes it easier to maintain order among the wires. The spacious interior allows the installation of long graphics cards up to 385 mm, and the maximum height of processor cooling is 159 mm.

In the upper part of the housing there is one USB 3.0, two USB 2.0 ports, HD audio connectors and an SD / MMC memory card reader, the access to them is quick and convenient.

In order to ensure better ventilation of the product, three fans were placed in the housing. Cooling is also supported by steel mesh inserts on the front and top panels.

To create the structure, 0.5 mm thick sheet metal was used, which together with the rubber feet on the bottom of the housing effectively reduces the vibrations and vibrations of the unit, ensuring its stability and reducing the level of generated noise.

The set includes a set of mounting screws. The contents of the set may vary depending on the delivery.
For the sake of the environment, all Akyga enclosures are packed in EcoBox packaging.
