Package size (L x W x H)	151 x 137 x 32 mm
Net weight	87.2 g
Gross weight	94.2 g
EAN code	5901720135551
Warranty	24 months

Description

The **Akyga® AK-CA-70** front panel is designed to be mounted in computer enclosures as a service or replacement element and consists of **one USB 2.0** port and one **USB 3.0 port**. In addition, two headphone and microphone inputs are included. USB 3.0 is a universal connector guaranteeing up to ten times faster data transfer between the computer and external devices than in standard 2.0. The USB 2.0 port is perfect for connecting a wireless mouse, keyboard, external storage media or other peripheral devices.
Audio connectors allow you to connect speakers or headphones with a microphone. The panel is compatible with the HD Audio system. The **65 cm** long cable enables free connection and arrangement of cables inside the casing.
The panel will prove itself as a replacement for non-functioning elements, as well as in case of the need to replace port 2.0 with port 3.0. It is an ideal solution for Akyga Midi Tower enclosures.
